

Risk Disclosure

BROKERAGEA

RISK DISCLOSURE

1. INTRODUCTION

1.1. Investing in any financial market poses a significant amount of risk to the Client's capital. Therefore, the Client is solely responsible for assessing his/her experience and knowledge before trading in a particular market with the Company and ensuring that he/she can accept the risks involved.

1.2. The Company's nature of business and services are made available only for users that can perform under legally binding contracts. The Client understands that financial investing is immediately associated with risks, including the possibility of capital deficit and loss.

1.3. The Client affirms that he/she has thoroughly read and understood the Risk Disclosure upon entering and executing transactions or trades with the Company. The Client can place any available instrument or asset provided that such execution does not breach the terms of the Risk Disclosure. By initiating an order or trade, the Client accepts the concept of price slippage or market gapping in the financial instruments, resulting in market price fluctuation. That being so, the Company does not and cannot guarantee that the outcome of such volatility will be at the advantage or disadvantage of the Client.

2. COMPLIANCE

2.1. The Client hereby acknowledges that if he/she fails to close the trade of an asset or contract before it expires, the trade may automatically close despite the floating profit or loss. A trade of an asset or contract may be excluded from automatic closure if the Client's trading account is stable and its statistics meet the Company's quality standard. If such a case occurs, transferring to a different liquidity provider is feasible subject to the Company's Terms and Conditions.

2.2. The Client understands and accepts that investing with assets and contracts may affect his/her capital. Accordingly, the Client hereby acknowledges that if an asset or contract expires before closing the trade, it may result in an automatic close of trade.

2.3. Market prices of all instruments and assets often fluctuate, which cannot be controlled by the Company or the Client. All market price movements are dependent on the market itself, and the Company does not advise the Client on the merits or aptness of any trade or contract entered into under the Terms and Conditions, nor will the Company monitor the Client's investments. Execution of any order does not, in any way, indicate that the Company has approved or recommended such trade or order.

2.4. While the Company may provide trading materials to guide the Client in his/her proficiency in trading, the Company cannot and does not guarantee the materials to be free of errors. The Client acknowledges that these trading materials are mere recommendations and are for reference only. The Company cannot and does not guarantee that the offered and provided trading materials are reliable, accurate, consistent, or verified. The Client is solely responsible for evaluating and determining whether the trading materials and other recommendations he/she receives from the Company are applicable for his/her trading or investment.
